Hi Omar,

Please see my comments below in your email in red text.

I think the A and B naming came from permits which were submitted, then for some reason the well was not drilled or converted to injection, years went by, then the well was resubmitted, and then converted and given the "B" name through your agency with a new permit number.

Hope this helps! Let me know if you have any more question/comments.

Cheers,

Jessie

Subject: Status Verification for the Following Wells 18-03a 18-03b 18-14a 18-14b

Hello Jessie,

I am currently reviewing the Petroglyph Area Permit UT20736. I have found some issues with some well names and status. I would like to verify these with you. I used a PGEI Lease Map Uintah Basin (dated 6/10/2014) for reference to locate the wells and 18-03 has only one well.

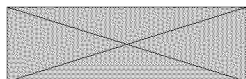

Can you please confirm these well names and status are correct?

- Ute Tribal 18-03b Permit # UT20736-06701 Status: Active Injection Well active injection, well name is Ute Tribal 18-03, NOT 18-03B
- Ute Tribal 18-03a Permit # UT20736-04364 Status: What is the current status? Not authorized / not constructed? Not constructed, no well exist with this name/number.
- Ute Tribal 18-14a Permit # UT20736-04360 Status: Withdrawn - Removed from well inventory. Not constructed, no well exist with this name/number.
- Ute Tribal 18-14b Permit # UT20736-07536 Status: Active active injection, well name is Ute Tribal 18-14, NOT 18-14B
